PROFESSIONAL SUMMARY

Senior Product Manager with 5+ years of experience in product strategy, discovery, and technical execution across marketplace, EdTech, health & wellness, PropTech, and LegalTech products. Expert in "AI-Product Building," using modern stacks (Claude Code, Vercel, Supabase) to build and validate complex products in weeks. Proven track record acting as a Fractional CPO for Seed-stage startups and SMEs, and as an agency Senior PM running client engagements across 10+ companies, significantly reducing time-to-market and development costs through rapid prototyping and data-driven discovery.

CORE COMPETENCIES

Product Strategy: Discovery, Roadmap, Opportunity Solution Tree, Jobs to Be Done, OKRs

Marketplace & AI: Two-sided marketplace dynamics, supply/demand balance, ARPU and pricing, AI-native product workflows, LLM-powered product features

Technical Execution: AI-Native Development (Claude Code), Vercel, Supabase, API Integrations

Product Building: WeWeb, Bubble, Make (Automation), Xano, Airtable, Framer

Growth & Analytics: AAARRR Framework, Mixpanel, Hotjar, Google Analytics, SQL (AI-assisted for complex queries)

Leadership: Team Management, Stakeholder Communication, Mentoring

PROFESSIONAL EXPERIENCE

NocodePM | Founder & Senior Product Manager

Madrid, Spain | Jan 2024 – Present

- Lead a product consultancy focused on rapid validation and scaling for startups and SMEs.
- Define business models and product roadmaps, personally executing MVP development using AI-assisted engineering.
- Reduced product validation cycles from months to 4-6 weeks, optimizing development budgets by up to 70%.

TogApp (LegalTech Marketplace) | Fractional Product Manager & Builder

Remote | Mar 2026 – May 2026

- Managed discovery and business logic for a complex legal marketplace connecting professionals for court hearing substitutions.
- Built a high-fidelity functional prototype (WeWeb/Supabase) to validate UX and technical feasibility.
- Delivered a technical blueprint that eliminated uncertainty and streamlined the transition to full-scale engineering.

Musa Project (AI Fashion App) | Fractional Product Manager & Builder

Remote | Mar 2025 – Aug 2025

- Led product discovery and AI-native development for a B2C fashion recommendation app.
- Launched a functional MVP in 6 weeks using AI for personalized user experiences.
- Achieved +400 beta registrations in 3 days; improved onboarding completion rate by 18% through iterative testing.

Wayliv (PropTech) | Fractional Product Manager & Builder

Remote | Oct 2024 – Mar 2025

- Prioritized product roadmap based on business impact and technical feasibility.
- Saved €5,000 in initial development costs by launching a functional MVP to measure early PMF metrics.

Comparte Suerte (Kairos SL) | Fractional Product Manager & Builder

Spain | Apr 2024 – Aug 2024

- Supervised product research and launched two MVPs to validate core business hypotheses.
- Saved €30,000 in development costs using No-Code methodologies compared to traditional software development.

Product People (Product Consultancy) | Senior Product Manager

Remote | Oct 2021 – Jun 2023

- Increased web traffic by 20% and lead generation by 5% by modernizing product stack and digital strategy.
- Mentored a team of 10 Associate Product Managers, establishing standards for discovery and delivery excellence.
- Ran client engagements as interim/fractional PM across 9+ companies spanning marketplace, EdTech, health & wellness, retail, and music-tech (detailed below).

Microverse (EdTech) | Product Manager, interim (via Product People)

Remote | Mar 2023 – May 2023

- Established discovery and launch foundations for "Leap," a new 0-to-1 product.
- Reduced product discovery time by 50% by implementing agile prototyping methodologies.

AVIV Group (Real Estate Marketplace) | Product Manager, interim (via Product People)

Remote | Jan 2023 – Mar 2023

- Increased Average Revenue Per User (ARPU) by 10% by launching three MVPs across German, French, and Belgian markets.
- Worked directly within a two-sided marketplace, balancing supply-side (listing/agent) outcomes with consumer experience across three markets simultaneously.

Franklin Institute of Applied Sciences / Pioneer People GmbH | Product Coach, interim (via Product People)

Berlin, Germany | Jan 2023 – Mar 2023

- Coached participants in a career-changer training program on core product management practices and ways of working.

Utopia Music | Product Manager, interim (via Product People)

Remote | Sep 2022 – Dec 2022

- Built an internal product analytics application, driving adoption to 300+ internal users.
- Cut internal tooling costs by 20% by consolidating fragmented analytics tools into a single product.

Douglas | Product Manager, interim (via Product People)

Remote | Aug 2022 – Mar 2023

- Improved an internal sales tool used by store SDRs across German and EMEA retail operations.

Douglas | Product Manager, interim (via Product People)

Remote | Mar 2022 – Aug 2022

- Managed the homepage and CMS product for a major European retail e-commerce platform.

Rotageek – Reinventing Scheduling (HealthTech, NHS) | Product Manager, interim (via Product People)

Remote | Dec 2021 – Jan 2022

- Secured a B2B contract renewal with an NHS hospital trust in the UK.
- Conducted 30+ interviews with nurses and doctors, applying Jobs to Be Done and user story mapping to inform the product roadmap.

Emma – The Sleep Company (Health & Wellness App) | Product Manager, interim (via Product People)

Remote | Oct 2021 – Aug 2022

- Led product discovery and development for "Emma Up," a sleep-health app, from concept to v1 launch across UK and German markets.
- Doubled user data capture and cut MVP cost and time-to-launch by 50% through No-Code prototyping.

No Nerds No Problem | Product Management Trainer, interim (via Product People)

Remote | Feb 2023

- Trained a product team on core product management practices and delivery standards.
